## CARBON LIGHT

---

Stunning beauty powered by the latest technology. Carbon Light is a high-performing modular suspension light made using the latest LED technology. A feather-light carbon fiber body links highly efficient power LED spots. With an adaptable design and multiple LED spot options, Carbon Light allows you to create the optimum levels of illumination for any surface. Enhance your space with Carbon Light's outstanding design, top quality materials, and excellent performance.

## DESIGNERS

---

Asobi is a creative consultancy specializing in product design and brand development. The company made its acclaimed debut in 2005 at the London Design Festival with a prototype of the fascinating Isle Lounge sofa. In 2011 Asobi presented its new furniture and lighting label, Tokio, with the debut of the Carbon Light at the Qubiqe Design Fair in Berlin. Tokio's products are distinguished by clean, simple lines, and always a playful touch. Using a variety of materials, Tokio aims to build a diverse collection of design pieces for both the contract and residential markets. The Carbon Light is one of the latest in a series of extraordinary products designed by Asobi.
